

The tough and protective polyester powder paint gloss finish is guaranteed to maintain its beauty for years to come and as aluminium is naturally stronger and more durable than other materials commonly used for windows and doors, it will not warp, rust or need painting.

Aluminium Windows, Doors and Conservatories

Why choose aluminium?

Aluminium windows, doors and conservatories have dramatically improved in style, performance and security over the years, combining slim sightlines with neat and elegant styling to allow maximum light into your home.

Carefully made to measure by our skilled craftsmen, your new windows and doors can be any height or width you choose and offer superb style in keeping with the character of your home.

Entrance Doors

Make an individual statement and add value to your home with a secure new front entrance door made to your exact requirements. There is a vast range of options available to suit all tastes and budgets. From stylish panels to diamond or square lead effects and Georgian bars, the choice is yours.

Inline Sliding Doors

Create a new entrance with an Inline Sliding door and you'll wonder why you didn't do it earlier! It can make a dramatic difference to how you use and enjoy your property. Whether it's for making the most of views, gaining easier access to the garden or effectively ventilating the house on hot days, the practicality of the Inline Sliding door is hard to beat.

Folding & Sliding

Folding Sliding Doors help create an open, flexible and modern space for both living and working environments. Available in a range of styles and designs, panels can be stacked inside or outside of the room, to the left, right or split to stack on both sides. Door sets can be manufactured to your exact requirements and can even replace entire walls to really maximise your opening space.

Conservatories

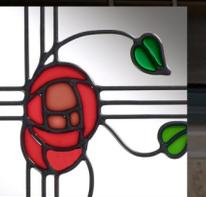

Create useful extra living space with a conservatory designed to suit your requirements perfectly. Conservatories are available in many different styles including Edwardian, Victorian or a simple lean-to. Aluminium is a key material for conservatories because of its strength, low maintenance, slim sightlines and its availability in a wide range of colour options.

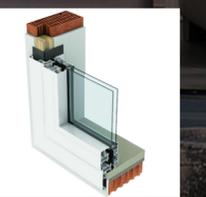

The energy performance A to G label scheme from the British Fenestration Rating Council (BFRC) helps you determine how well your window, door or conservatory product will perform in terms of thermal performance.

Choose from a wide range of quality hardware in various finishes to customise your new conservatory, windows and doors to your individual preference and lifestyle.

From maximising insulation and reducing heat loss, to a variety of obscured, patterned and safety glass options, we have a wide variety of beautiful and practical glazing options to choose from. Safety glass comes as standard on all new doors.

Aluminium does not warp, twist or rust and requires virtually no maintenance. Its inherent strength and structural performance allows it to withstand the harshest of weather conditions, regardless of application.

Dictate your colour. Aluminium allows you to take control of your home. All products can be specified in an infinite number of colours simply by stating the RAL reference. Just ask for details.

Multi-point locks and security gearing provide added resistance to any potential form of intrusion by securing the window or door at various points along the frame.

The first aluminium system in the UK to achieve an 'A-rated' Window for the Window Energy Rating Scheme with a double glazed unit, giving you a genuine quality and energy efficient solution at an affordable price.

All our products are treated with the utmost care and manufactured to the highest quality standards, so you can be confident that they will maintain their looks and provide you with exceptional performance for many years to come.

Externally Glazed Casements

Whether traditional or modern, our externally glazed casements will add a timeless elegance to the appearance of your home. Your new windows can be custom-made to complement your home's exact style and character. Choose from standard or shaped windows and a range of colours, including dual colour options, such as black outside and white inside, for a completely individual look. The choices are simply endless.

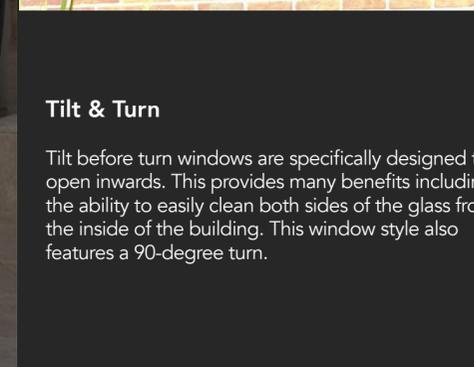

Internally Glazed Casements

Recreate the elegant and classy look of a bygone era with sculptured vents and outer frames. This detail, called an Ovolo, can add the perfect finishing touch to your new windows. If you are seeking a more conventional look, we can cater for the whole range of styles including flat, feature and rebated styles - just ask your Representative for more information.

Steel Replacement Windows

Designed to help replicate and enhance any home with the styles of bygone years. Four variations of this unique product are on offer with at least one being suitable for your home. Minimal sightlines, internal glazing and multi-point locking systems are all available on this range of versatile windows. Contemporary, Crittal replacement or simply slim aesthetics, steel replacement windows cater for every situation. Just ask for further details.

Tilt & Turn

Tilt before turn windows are specifically designed to open inwards. This provides many benefits including the ability to easily clean both sides of the glass from the inside of the building. This window style also features a 90-degree turn.
